Subject: water statement

Wanted you to know Mountaire is going to offer to drill new deeper wells for people in the area west and south of our facility. Approximately 88 properties. We do not believe that our recent upset is the cause of the elevated nitrates, but in order to be a good neighbor, we are going to make this offer to the local community. I called to let you know as soon as we finished the press release, but I missed you.

Let me know if you have questions.

Thanks

Michael W. Tirrell
